

# BAS III

## SPONSORSHIP OPPORTUNITIES

*Birmingham Area Software Enthusiasts  
2026-2027*

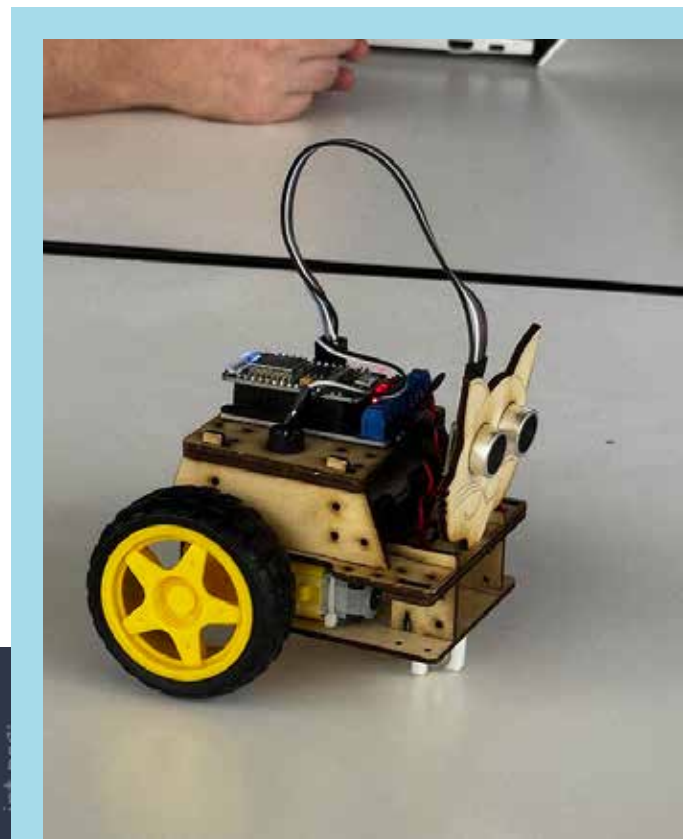

# OUR BASE OF SUPPORT

BASE is Birmingham Area Software Enthusiasts, a community serving seasoned and aspiring practitioners of software engineering in Birmingham, Alabama. People of literally - literally - any experience level come together to connect with each other, learn about the tech, and grow in their careers (or even just their interest). We host meetups, small-group events, and conferences for our members and for the greater community.

Our speakers include expert professionals from the Birmingham area and around the country. Our members are your future interns and employees. Our events are your chance to promote your brand. And so we offer a variety of opportunities to see and be seen in the Birmingham-area tech community, and to support the work we do.

*BASE is a 501(c)3 educational nonprofit.*

## WHAT YOU GET FOR WHAT YOU GIVE

**Visibility.** Get your brand in front of audiences as large as the 200+-person crowd of attendees at [sloss.tech/dev](https://sloss.tech/dev). See your logo on signage, our website, and digital communications, and see other people seeing it.

**Connection.** Connecting isn't just for members. Our events are your opportunity for networking, socializing, and recruiting with local tech practitioners who are serious about their skills and their careers.

**Foundation.** BASE - and the whole Birmingham tech community - thrives on support from the industry. Your contribution makes a difference from the ground floor up.

|                              |        |
|------------------------------|--------|
| Members on Meetup:           | 2,000+ |
| Members on Discord:          | 150+   |
| Attendees at meetups:        | 20+    |
| Attendees at 2026 dev track: | 200+   |
| Speakers at 2026 dev track:  | 12     |
| LinkedIn followers:          | 550+   |

# WHAT WE DO

## **sloss.tech/dev**

The software engineering and development track serving more than 200 attendees at the annual SlossTech conference.

## **re:BASE conference**

An annual conference for and by software professionals from around the area and the country, offering education and chances to connect.

## **Birmingham BarCamp**

An annual “unconference” inviting attendees to become presenters at a low-pressure community-centric event.

## **Ignite**

A semiannual night of 5-minute, 20-slide micro-talks by local experts and enthusiasts – educational, fun, and usually funny.

## **Tech Talk Dry Runs**

A quarterly evening of half-ready presentations, for aspiring speakers to practice speaking and experienced speakers to polish talks.

## **All Your BASE**

Our monthly meetup, gathering for connection, conversation, and food.

## **Show and Tell**

A monthly evening of projects, demos, and challenges shared by members and friends.
